

An infographic illustrating the overlap of three conditions: Heart Failure (HF), Diabetes Mellitus Type 2 (DM2), and Chronic Kidney Disease (CKD). The background features a large red heart shape on the left and a large yellow-green teardrop shape on the right. Three overlapping circles are positioned in the center: a red circle labeled 'HF', a yellow-green circle labeled 'DM2', and a blue circle labeled 'CKD'. The circles overlap each other and the background shapes, with lines connecting them to the background elements.
